DESIGNER: Englehart Homes

PHOTOGRAPHER: Matthew Mallett, Matthew Mallet Photography

This luxurious, contemporary, single-level three-bedroom home was designed to respond to the local climate, the client's lifestyle and the site's northern orientation. The design is both classic and contemporary, combining sweeping horizontal lines, wide, sheltering eaves, an expansive loggia and a statement blade wall to a great and practical effect. The exterior features stretches of horizontal timber windows, dark-mortared Daniel Robertson brickwork and slate-look terracotta tiling. Inside, there is a seamless integration of indoor and outdoor spaces, tall 2.75-metre ceilings, expansive glazing and clever zoning of living and private spaces.
